

VOLUNTEERS NEEDED FOR RESEARCH STUDY

From Entrance to Departure: A Study of the Traveler's Journey

My name is Joe Ramos, and I am conducting a research study for my PhD in Business Psychology at The Chicago School. The purpose is to understand travelers' feelings and experiences as they move from the airport entrance to the departure gate.

You may participate if you:

- Are 18 years of age or older.
- Currently live in the United States.
- Traveled for leisure through a major airport at least twice in the past 12 months
- Are able to discuss your experiences with travel stress without it causing you severe upset or worry.

Study Participation Procedures: During this study, you will first complete a short screening questionnaire using Microsoft Forms that will take approximately 5 minutes to complete. If you qualify, you will then be directed to Cal.com to schedule a 60 to 90-minute virtual interview. We will use audio recording to make sure we accurately catch everything you say during our talk.

Location of Research: The interview will be conducted virtually via a secure video conferencing platform (Zoom).

Interested? Click on the following link or Scan the QR code below to see if you qualify. The Link and QR code will take you to a secure Microsoft Form to complete the initial screening questions.
