

Research Participants Wanted

Do you have a Preference when Selecting Mental Health Providers?

[PURPOSE OF THE STUDY]

My Name is Morgan Taylor, and I am conducting a research study to fulfill the requirements for a PsyD Degree in Applied Clinical Psychology at The Chicago School.

The purpose of this study is to determine whether BIPOC clients prefer working with MHPs who culturally and demographically align with them.

During this study, you will be asked to complete a one-time survey. The survey consists of multiple-choice and rating-scale questions, asking you about your demographics and the demographics you prefer for your therapist. The survey will take 5 to 10 minutes to complete. The study will take place online via Qualtrics.

CONTACT INFO

If you are interested and/or have any questions, please contact me or my dissertation chair.

Morgan Taylor, principal investigator
