Alumni Employment Outcomes

Academic Year 2023—2024 Graduates

Introduction

The information presented in this disclosure is intended to function only as a sample of the types of employment in which graduates of The Chicago School work. It in no way guarantees that future graduates will secure employment with either the employers or in the job titles listed. Also, it is important to note that some job titles require state-specific licensure. When considering enrollment in a program offered by The Chicago School, students are expected to be aware of whether their program of interest is eligible for licensure and the licensing requirements in the state in which they plan to work.

Methodology

The Office of Institutional Effectiveness and Research (OIER) surveyed The Chicago School alumni who graduated in academic year 2023 – 2024 (AY 23–24)[1] using a web-based questionnaire. Using The Chicago School's alumni database, OIR identified 1,359 The Chicago School alumni with a valid email address who graduated in AY 23 – 24 from The Chicago School. Contact information for the sample was provided by The Chicago School 's alumni database. The survey was available from 09/04/25 to 10/13/25. The response rate for the survey is 15.9% (n=216). To increase response rates, OIR first contacted individuals using an introductory email on 09/04/25 with subsequent reminder emails. The total number of possible contacts attempted by OIR was four.

Please note that this disclosure only includes information from academic programs that had five or more survey responses to the following survey item: *Are you currently employed?*[2] The results presented in the following disclosure are based on survey responses from AY 23 – 24 graduates responding to this survey whose programs have at least 5 qualified respondents (n=133).

[1] The sample was pulled using TCSPP's alumni database, Raiser's Edge and CVue. All individuals within the sample have a conferred graduation date ranging from 07/01/23 to 06/30/24 and a valid email address.
